Chair Report

BCSTA Chair Zoom Meeting – Trustee Dixon

The topic was COVID.

Dr. Reyka Gustafson, an immunologist with the B.C. health system, was present to give information and suggestions.

Her greatest concern is that the kids are NOT alright.

She answered all kinds of questions about cohort and other safety plans.

Stated that there is no best way of protecting yourself and emphasized that the layers of protection are the same. Stay at home when ill, avoid face-to-face interaction, wash your hands. Any and all are best in any setting.
