Policy Committee Updates and Recommendations

Re: Notice of Development of New Policies

1) Child Care Policy

In accordance with Ministerial Order M326, the Child Care Order, Boards of Education are required to develop and adopt a Child Care Policy. The purpose of the policy is to provide guidance with respect to how the board will support the use of board property for the provision of child care programs by either the board or third party licensees.

2) Transportation Policy

The District underwent a Transportation Audit in the spring/summer of 2020. A recommendation that resulted from the Audit, and directed to the Board was the development of a Transportation Policy that aims to provide transparency and guidance on routing, eligibility, etc. among other factors.

3) Scent Considerate Environment Policy

Recognizing that some of our students, staff and community members may suffer negative health effects from exposure to scented products, a policy will be implemented for the purposes of supporting a safe and healthy working environment.
