

Strong Start Report September 21, 2021

SD10 values the role that Strong Start Centers play in our communities. We continue to follow health guidelines and are promoting more sessions outdoors and in larger venues (gyms) to allow more families to have access to the program. Our Strong Start Coordinators are providing various ways for families to engage and connect, and they are providing meaningful learning opportunities for children and families. Community outreach continues in each of our centers and families can access supports and information from the Strong Start Coordinator.

Nakusp:

-Due to construction of the new childcare center and the Nakusp elementary school addition, the Strong Start program will be an outreach program for most of the fall until the new Strong Start center space is completed

-Alternate locations for in-person programming on Wednesdays will be commencing in October and information around time and location will be sent out to the community in the coming weeks.
