

2025-2026 Budget

Public Survey Questions

For all questions, please tell us how financial resources could be allocated to improve educational outcomes for students.

Q1 - Student Competency: What investments should our schools prioritize to ensure students have the knowledge, skills, and abilities needed for success in the future job market and society?

Q2—Health: What could be done to increase the wellness and resiliency of our students, staff, and families?

Q3 – Environment: What more can our schools do to promote environmental education, sustainability efforts, and outdoor learning opportunities and skills?

Q4 – Collaboration: How can schools enhance collaboration with partners in our communities?

Q5 – Technology: How can our schools best prepare students for today's digital world and future career opportunities? Please share any suggestions or areas for improvement.

Q6 – Facilities: How can our school buildings and outdoor spaces be improved to best help students learn? Please share any specific suggestions or improvements to enhance the learning experience for students.

Q7 – Dreaming Big:

Dream BIG or small: how can we best serve our students and community? Please share any other thoughts.
